CREATIVE TECHNOLOGIES

Full Stack Developer

Cologne

We are looking for a friendly, creative native digital to enrich our team in the area of creative coding, You'll be in charge of front-and backend development of interactive projects, technical research and conception, but foremost pushing interaction and web technologies together with a very skilled and passionate team of designers and developers forward.

You'll have the chance to bring in your own ideas and not only develop websites, but interactive experiences of all sorts

and integrate into an international team, who all share the same goal, creating the best possible experience.

You created medium to advanced frontend websites, did your part in creating touch enabled experiences - and are open

to learning new languages and playing around with new technologies

Desired skills & experience

- 3+ years of digital design/development experience
- Demonstrated experience creating successful digital projects
- Excellent understanding of HTML, CSS/SASS, Javascript, Animation Frameworks
- A good understanding of at least one of the following: PHP, NodeJS, VueJs/React
- Strong OOP skills, writing clean and maintainable code
- Knowledge of collaborating on projects - GIT
- Ability to self-manage projects and work within deadlines
- Excited and curious about learning new technologies, as well as sharing of ideas and collaborating.
- Able to work in a team but also take the lead on a project from idea to deployment.

Please send your application not via snail mail, but via mail to jobs@demodern.de
