

DIGITAL AGENCY

[Senior] Mobile Developer

Cologne

We are looking for a friendly, creative native digital to enrich our team in Cologne in the area of mobile app development. You'll be in charge of frontend development of mobile projects, technical research and conception, but foremost pushing forward interaction and mobile technologies – together with a very skilled and passionate team of designers and developers. You'll have the chance to bring in your own ideas and not only develop mobile apps, but interactive experiences of all sorts and integrate into an international team, who all share the same goal, creating the best possible experience.

Skills & experience

- 3+ years of mobile app development experience
- Strong OOP skills, writing clean and maintainable code · Knowledge of collaborating on projects
- Ability to self-manage projects and work within deadlines
- Excited and curious about learning new technologies, as well as sharing of ideas and collaborating.
- Able to work in a team but also take the lead on a project from idea to deployment.
- One or more of the following: Swift/Kotlin/Java, React/React Native, Angular/Ionic
- Knowledge in CI tools like AppCenter, TeamCity or Build Pipelines.
- Knowledge with backend or middleware like Node.js, Python, MongoDB, AWS Lamda, Elastic Search

Please contact us and include some work samples testifying to your abilities and your résumé.

Please send your application not via snail mail, but via mail to jobs@demodern.de
