

CREATIVE TECHNOLOGIES

UX Designer

Frankfurt

We are currently looking for an ambitious user experience designer (m / w) to set up a team in Frankfurt / Rhine-Main, who takes care of the high-quality user guidance and information structure of our digital projects. The Senior UX Designer at Demodern works as an idea generator (in-house) and consultant on future-oriented interaction concepts and ensures the best possible user dialogue with creativity, knowledge and empathy. Very good communication skills are a must-have not least to be able to convey concepts, ideas and use cases of the projects within the team and to the customers.

Tasks:

- Creating UX concepts taking into account the goals of our customers and their users
- Translation of ideas in wireframes and prototypes - for all interaction areas
- Working with individual user scenarios (Personas, use cases)
- Conducting testings to improve user guidance
- Development of UI Guidelines
- Consulting and support of the entire project process, from brainstorming to production
- Evaluation and research of innovative technologies in all digital fields

Requirements:

- 3+ years conception or UX design experience in a digital agency
- Proven relevant participation in successful online projects
- Speed, efficiency and very good knowledge in creating wireframes
- Experience in writing concept presentations
- Ability to collaborate and integrate design, engineering, and project management

Please send your application not via snail mail, but via mail to jobs@demodern.de
